

## PD-120 PD Meter

**FEATURES:**

Flexible baffle  
Stylish design

Three colors optional: Silver, Blue, Beige

Range of measurement	Binocular papillary distance: 44mm—83mm Left or right papillary distance: 22mm—41.5mm
Indication error	≤0.5mm
Asymmetry error	≤0.5mm
Automatic shut-off	1 minute after operation stop
Power source	Voltage: DC 6V, Specification: 5# AA battery, Quantity: 4 pieces
Overall dimension	219mm×169mm×86mm
Weight	0.7KG

## PD-140 PD Meter

**FEATURES:**

Featuring consecutive measurement, direct point-sampling and high accuracy of orientation, with mechanical hairspring being leveled at the reflecting point of human cornea.

Using high-definition line-shaped sensor, advanced intellectualized electronic system and digital display to make testing result more visible, legible and accurate.

LED light source and low power consumption make battery life prolonged.

+2.00D eyesight compensation

Accuracy self-check function

VD measurement function
