

## **RP-200 Retinoscope (Rechargeable)**

**Character:**

The first developed rechargeable streak retinoscope in China.  
The well positioned glower can be rotated 360° upward and downward,  
the brightness can be adjusted.  
Fully charged can be continuously used for at least 2 hours.

**Specifications:**

Working distance: 1m  
Adjustable range of streak: 3mm~20mm  
Streak Rotation: 360°  
Illumination source: 3V/2.1W halogen bulb  
Power: AC 220V/50Hz ; 110V/60Hz  
Battery charger: Lithium battery

## **OP-200 Ophthalmoscope (Rechargeable)**

**Character:**

Perfect optics system offers a clear image of eyeground.  
Fully charged can be continuously used for at least 2 hours.

**Specifications:**

Illumination from: Large light spot (dia. 3.2mm);  
small light spot (dia.1.6mm); slit; central-net; redfree filter  
Diopter compensation: 0, ±1D, ±2D, ±3D, ±4D,  
±5D, ±6D, ±8D, ±10D, ±12D, ±16D, ±20D, -25D  
Light source: 3.6V, 2.6W Mini-halogen lamp  
Power Supply: AC, 220V/50Hz, 110V/60Hz  
Input Power: 8VA
